

The Mission Climate Pact

I, the undersigned, represent a public or private entity willing to contribute to climate change adaptation efforts in the region of Southeast Europe.

The entity I represent is committed to enhancing regional and local climate change adaptation efforts in Southeast Europe through the development and integration of best practices, research results, and technologies into climate change adaptation initiatives for a healthy and clean environment.

We are also committed to stimulate investments from public and private sources in for disaster prevention and climate change adaptation efforts so as to create economic growth and prosperity and to contribute to the creation of a regional economy and market in support of climate change adaptation actions.

The entity I represent commits to the following values, standards, and actions to create the conditions to achieve climate resilience in Southeast Europe and to help achieve the EU climate change adaptation goals:

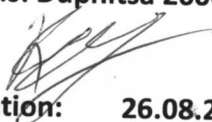

- Create and use knowledge, methodologies, and technologies to carry out climate risk assessments;
- Jointly work to support citizens, scientists, businesses, policymakers, and other relevant stakeholders in designing and deploying actions for climate change adaptation;
- Contribute to efforts and pragmatic actions for making the region of Southeast Europe climate resilient;
- Raise citizen awareness of the need for climate change adaptation efforts and involve them in decision-making, advocacy, and implementation processes.
- Mobilize resources and develop concrete projects in the region of Southeast Europe to contribute to reaching EU climate change adaptation goals.
- Pilot, demonstrate, and deploy disaster prevention and climate change adaptation solutions in Southeast Europe.
- Exchange expert knowledge, best practices and experience with Pact Partners to mutually support each other's efforts for climate change adaptation projects striving to abide by the highest quality standards for environmental protection, at the same time creating economic opportunities and building prosperity for local communities.
